

THE MARYLAND GENERAL ASSEMBLY
ANNAPOLIS, MARYLAND 21401

January 13th, 2025

Dear Councilman Marks,

We are writing today to voice our strong support for the proposed new branch of the Baltimore County Public Library in Middle River at Greenleigh.

As representatives of the 8th Legislative District, which includes portions of Middle River, we are witnessing, first-hand, the growth in this area. We believe that Greenleigh is an excellent location for a branch of the library.

A branch of the Baltimore County Public Library located there would serve the community of Greenleigh and the surrounding communities in Middle River extremely well. It would provide a much needed community hub, potential meeting spaces, and we think it would see a lot of use almost immediately following completion. Additionally, since the space will be leased, this could all be completed more quickly and at less of an expense to the County.

In short, Middle River is in dire need of many of the resources and community spaces that a library would provide, and these communities deserve such a place.

Thank you for your time.

Yours in service,
